A Journey to inner space!

Only love matters

Contemporary Ballet Production

By Anatole Petrovich Kononewsky

The production of a Contemporary Ballet was inspired and initiated by the album above called, "Only love matters: music for Soft Diamond Light. This album is part of the publication of the "[Soft Diamond Light](#)" Artwork Production. (See Literary Works below). A Synopsis of the ballet has been prepared.

It is a journey into inner space via the creative expression of 9 dance moves.

 inner inspired impulse: *Only love matters*:

[Contemporary Ballet Overview](#)

[Dance Moves Overview](#)

Soft Diamond Light and the ballet is dedicated to my spiritual teacher.

Objective

The objective is to choreograph an exquisite and captivating contemporary ballet to the music album: 'Only love matters'. The aim is to inspire a beautiful, powerful heartfelt experience for the audience, connecting them to their innate inner spirit and intuitive knowing of our united consciousness.

The intention is to capture the essence of creative expression via the inner inspired impulse of dance and music.

It is intended to use the specific titles of the music tracks and their associated sub-titles as an inspirational starting-point for each of the choreographed dance pieces.

The ballet will also use two 'Meditations' and their associated 'Insights' from the book, 'Soft Diamond Light, Only love matters', plus the theme poem for Soft Diamond Light, 'Jewel of the Lotus' as a source of inspiration for the choreography.

Experimental Mixes & Music Videos

Each of the [experimental mixes](#) ("Limitless Space" Seeking a Dance in Time to Music: Five Movements 1 to 5) below were produced & mixed by Anatole Petrovich Kononewsky. They were never released and were all based on track 13 ('Move 13 Silence is the source of sound') from the album. "[Only love matters: music for Soft Diamond Light](#)".

Produced under the title of: "[Limitless Space: Seeking to dance in time to music](#)".

All the tracks in this album were, in turn, all based on the melody of the song, "I know I Am" in the album. The album was produced using a very unique and intuitive production process over a number of years.

The album is part of the [Soft Diamond Light package](#).

"Just SO BEAUTIFUL, Anatole! I sincerely wish for this to become a song on many people's lips and in their hearts. It is anthemic, uplifting and soulful!" Kalli Pulos, Senior Executive Facilitator, Institute of Executive Coaching and Leadership.

Ancient Power of Sound (Mantrika Shakti)

Everything Comes into Physical Reality via Sound.

In esoteric tradition and understanding, every seed in nature creates a "unique note" when it germinates! This "etheric note" is its specific sound signature that embodies what it can and does become. This intelligence within nature creates a glorious symphony of inner sound forming the source of all manifestation. There is a body of ancient teaching and wisdom called Mantrika or Matrika Shakti. The force or power of letters, speech, or music. It is the creative power inherent in sound -- every sound being a vibration, and every vibration having its own numerical keynote.

Consider that every creative act, especially your business, is manifested via the use of sound -- selling/ marketing/ PR/ Planning is all about this! Essentially, speech gives form and expression to emotion: an idea animated with an direction.

But the inner truth is far more profound and powerful in its implications and applications!

"Let Yourself Go" 1984	"Blues Shuffle with Feeling" 1986
"Feeling is Right" 1984	"See the World in You" 1989

The songs were composed during a challenging time in my life after my divorce with my childhood sweetheart and separation from my young daughter.

1981 – 1982 (Theatre)

After some speech and singing training in 1981, Anatole auditioned for 2 semi-professional plays, in which he was successful in receiving key roles in both.

"Find Me" by Owen Wymark

The first play was first performed in 1977. It is the true story of Verity Taylor, who grew up in the 60s and 70s, and whose extremely disruptive personality threw into sharp relief the inability of various institutions to be able to diagnose or cope with her problems. In the end, after setting fire to a chair in a mental hospital, Verity was committed to Broadmoor - a massively strict sentence for someone who needed help, not locking up. It's definitely not a comedy.

I wrote the song, "Find Me" for the play – it was played at the end of the show.

"Coriolanus" by William Shakespeare

The second play based on the life of the legendary Roman leader. This is one of Shakespeare's later plays, appearing circa 1607, following on the heels of landmark tragedies such as King Lear, Macbeth, and Antony and Cleopatra..

They were both directed by David Williamson.

1983 - 1986 (Computer System)

Responsible for the implementation of a major new computer system, the land Tax 'COLLECT' system. It was awarded a GOLD award in the Technology in Government Committee's inaugural "Technology and Computer Productivity Awards". It was presented by the Governor General, 1988. (See page 66 below.)

1987 - 1992 (TV Series)

Set up public company to raise capital for production of a 16 week Export Development TV Series to the USA showcasing Australian technology: "A Look Down Under"-- endorsed by Senator Button. (See page 67 below)

Guitar with Strings: *Dancing with Inner Fire!*

This classical guitar piece was created between 1978 to 1994 – I recorded the pieces on cassette tapes at home – very rough demos – luckily I kept them because I've even forgotten how to play some of the pieces. It is proposed to add strings sections to the composition. It is also intended that the ultimate performance and production of the composition will incorporate uplifting and integrated choreographed dance pieces – capturing the fullness of dancing with fire!

SOCIAL INITIATIVES (Continued...)

.Vision of Soft Diamond Light

The [Vision of Soft Diamond Light](#) is modelled upon the [social initiatives](#) implemented during 1989 to 1996, particularly, the "Before it's Too Late" initiative (1990 to 1996).

This was launched based on one of the three documentaries I produced over that time, "[Our Children's Future in Our Hands](#)" in 1993. This new initiative was launched in the "[Soft Diamond Light](#)" Artwork Production outlined above.

The [vision of Soft Diamond Light](#) is focused on two areas:

Ending Child Abuse. Creating remarkable children!

The overall goal and purpose is about creating a world of peace & prosperity for everyone by [Turning the World Around](#).

These initiatives are dedicated to the young people on the planet.

Please see a detailed overview of this initiative on the following pages.

The vision for Soft Diamond Light is to see a world of peace & prosperity for everyone on our planet. The fact is, it is only when we can see something clearly enough that we actually have a good chance of actually getting there.

[Overview of Strategic Plan](#), published in book, 'Soft Diamond Light, Only love matters'.

This outlines the basic plan that provides the basis for achieving the objective of the vision and to assist in the transmutation of hatred and war into love and peace on our planet I wrote to the Prime Minister of Australia and other world leaders in 2002 on this issue. My interest in these areas dates back to the 70's of the last century.

The letters are focused on the essential ingredients for creating a world of peace and prosperity for everyone on this planet - the vision for Soft Diamond Light.

The primary issues raised in the letters were as follows:

1. Is peace and prosperity possible for everyone on this planet?
2. Would you like to see peace and prosperity for everyone on this planet?
3. How could we achieve peace and prosperity for everyone on this planet?

It has been shown in some detail that this vision is [financially realistic and technically possible](#). (*) I believe this vision could be achieved in one generation if the overall consciousness of humanity truly wanted and believed it could and should happen!

Creating remarkable children!

Safe | Secure | Successful

A global initiative dedicated to bringing the vision of ending child abuse and creating remarkable children into a living reality.

Child abuse is the single most significant cause of everything wrong on this planet. Conversely, creating remarkable children who can reach their full potential is the single most effective way to create a world of peace and prosperity for everyone on this planet.

By ending all forms of child abuse; by nurturing and nourishing the physical, emotional, mental & spiritual wellbeing of all our children in every country around the world we can transform our planet.

Creating remarkable children from day one is by far the most powerful, effective way of creating a world of peace and prosperity for everyone on this planet.

Every child has the right to have this fundamental lifestyle: a life that is *Safe*; a life that is *Secure* and a life that is totally *Successful*.

By *Safe* means totally free from any form of violence, and any preventable or unnecessary physical, emotional and mental pain and/or harm.

By *Secure* means the appropriate supply of high-quality nutrition, accommodation, protection, care and love.

By *Successful* means the provision of an environment and atmosphere that stimulates, encourages and supports the realisation of their full physical, emotional, intellectual and spiritual potential.

Vision of Soft Diamond Light

*Creating a world of peace and prosperity
for everyone on this planet.*

Global Charter for World Peace

Human Beings | Parents | Mothers | Fathers
Education | Community | Government | Business

The highest role of human beings: To live a safe, secure and successful life (as outlined in the 'Soft Diamond Light global initiative'), and to reach their full creative potential as a spiritual being in a physical body by living in balance with nature. To be great, while making others greater with uninterrupted selfless service. To care for the environment and support all life, especially children, in reaching their full potential: intellectually, emotionally and physically.

The highest role of parents: To create a safe family environment for love and happiness to come into its highest and fullest expression. To give children the best conditions for conception, gestation and birth. To provide a safe, nurturing, supportive atmosphere for their children, which allows them to discover and fulfil their highest role as a human being.

The highest role of mothers: To create the best possible conditions and atmosphere for giving birth to children, on an intellectual, emotional and physical level, prior, during and after the moment of conception. To then provide them with a caring, nurturing, nourishing and supportive environment for discovering the full potential of their spiritual nature through their individual personality.

The highest role for fathers: To be actively involved in supporting the highest role for mothers, and to do everything possible and necessary to honour, respect, support, encourage and inspire children to fulfil their highest purpose and potential as a human being.

Vision of Soft Diamond Light

*Creating a world of peace and prosperity
for everyone on this planet.*

Global Charter for World Peace

Human Beings | Parents | Mothers | Fathers
Education | Community | Government | Business

The highest purpose of education: To support the highest role of human beings and facilitate the discovery, understanding and unfolding of our innate latent powers as spiritual beings, and how these powers can best serve the highest good of the community. To teach practical life skills for living that are in harmony with the environment, with others and within ourselves, in accordance with the ongoing discovery of the natural laws of the universe.

The highest purpose for the community: To provide all the services, resources and practical requirements necessary to support the highest roles of human beings and particularly parents, and to fulfil the highest purpose of education.

The highest function of government: To support the highest roles of the community and education throughout the world.

The highest function of business: To support the highest function of government on a global scale for the highest good of all life. (There may come a time in the twenty-first century when the distinction between business and government will no longer be needed.)

“When the highest roles of business and government will merge. Peace and prosperity for all people on this planet will become the primary function of a new planetary, governing body. This will be achieved by an equitable distribution of all the planet’s resources. This new planetary governing body will be created when the highest roles of human beings, parents, mothers and fathers are attained in sufficient numbers on our planet. We will then see the vision of the Soft Diamond Light global initiative come into reality.”

SCHOOL OF UNIVERSAL THOUGHT

DIPLOMA OF INSPIRED THINKING

Spiritual Reality & Intelligence

The primary objectives of the Institute are to:

1. Facilitate a greater understanding as to the meaning and purpose of life;
2. Awaken the inner intelligence of the spirit and the heart;
3. Increase the productivity, creativity and capacity of the mind;
4. Explore how life and the universe works and
5. Inspire individuals to become of greater service to the world!

This is examined from a physical and metaphysical; microcosmic and macrocosmic point of view. The teachings and philosophies are based on the Ancient Wisdom, referred to in Greek times as "*Theosophia*". This wisdom encompasses two fundamental schools of thought. Firstly, that the entire world, indeed the entire solar system, is a manifestation of God and secondly, that God dwells within us, as us.

Theosophia was introduced once again, in a more contemporary form during the early part of the last century. It embraces all philosophies, religions and scientific beliefs. It aims to satisfactorily and systematically explain why *everything* exists and has an intricate, interdependent and inter-related role to play part in the manifestation of the universe, as the universe.

The Inspired Thinking Institute also provides professional services; education; facilitates research projects; and media production to empower the creation of a new wave of global leaders for the 21st Century.

Leaders who have the vision and courage to create one world, living in peace and prosperity!

It seeks to facilitate a quantum shift in awareness that can take you *beyond the barriers of your own mind and into the spirit and wisdom of the heart!*

You will discover: A meaningful, well ordered, specific plan of evolution that extends to the far reaches of the solar system, of which we are one small important fundamental integral part. The only thing that separates anything, from anywhere, at anytime in the entire Universe is our state of consciousness. The only purpose of life is the never-ending discovery and expression of higher states of consciousness.

You will understand: We do not exist in isolation in this solar system. In fact we are slap dab in the middle of a beautifully designed, intricate plan of evolutionary unfoldment bringing our inner spiritual essence to its full realisation. Our purpose is to unfold our innate higher states of awareness and consciousness to discover there's more to life than meets the eye.

Electives

1. "NATURE KNOWS BEST: A LIVING EVOLVING BEING!"

Everything has a place within nature because the entire planet is the 'Body' of an actual living evolving 'Being'. If we realise everything is interconnected and more importantly, how everything has a place in nature, including people, then we can actively and intelligently participate in the scheme of things.

2. "CAREFUL YOU'RE EATING YOUR THOUGHTS"

Our thoughts and feelings produce shapes and colours around us, as does music! Therefore the music we listen to and the words we speak have a very powerful, far reaching metaphysical and physical effect on our daily lives. Music can drastically effect our creativity and productivity. Our thoughts and feelings also effect the food we prepare, so the saying 'You are what you eat' takes on a totally new perspective.

3. "A MATTER OF LIFE & DEATH"

The fear of death is very common within our Society. Death - it is one of our greatest taboo subjects and probably the least generally understood!

4. "THE INTELLIGENCE WITHIN NATURE: A NEW DIMENSION TO THE ENVIRONMENT

Can we communicate and cooperate with an intelligence within nature? How does nature materialize itself? Do Devas, Angels and Nature Spirits exist? What is their function on our planet? By going directly to the source within nature can we open a new powerful awareness and potential for restoring the balance back to all aspects of the environment?

5. "THE MIRACLE OF BIRTH"

A child is created by a magical invisible process of nature! You can actively participate in maximising the opportunities for your baby's intellectual, emotional and physical potential, before, during and after your pregnancy. Discover the metaphysical process of birth from the moment of conception - a truly miraculous manifestation.

6. "SLEEP: THE OTHER SIDE TO LIFE"

What really happens when you go to sleep? What are dreams? Everyone leaves their body when they sleep and depending on your willingness to do the training, it can be more fascinating and productive than when you're "awake."

7. "SOUL & THE PERSONALITY

The common misconception is that we are a body, with a soul, hovering somewhere above us. The truth is exactly the reverse! The Soul, who we really are, takes on various vehicles to gain experience of lower vibrational states or worlds.

8. INNER SPACE - THE NEW FRONTIER

The extraordinary accomplishments in our conquests of outer space, with their discovery of sublime vastness, beauty and grandeur are equally matched with a largely, as yet, unrecognised frontiers of 'inner space', where the answers to outer space can be answered.

LIFE GOES ON...1 TO 3

The lives of a specific Soul were examined in 1907 by Charles W Leadbeater. It was the first serious attempt to link together many lives of many persons in consecutive order and they throw much light on the workings of Karma and the Law of Reincarnation.

They provide fascinating lessons in the working of karma life after life, full of instruction for the realisation of the continuity of human life.

The working of karma may be learned by a study of a series of lives and this remarkable study reveals the effects of one life on the next and often numerous lives. This often occurs in very dramatic, sometimes bizzare but always unfailingly with divine justice. The insight provides unflicking courage and trust in the ultimate evolutionary process. It expands ones thinking extraordinarily beyond any mundane, narrow perspective.

We see the inter-relations of individuals,

The results of benefits and injuries, the links that draw the egos together,

The repulsion's that drive them apart, life after life.

We examine and study the last 24 lives of this Soul dating back to BC23,875 with births in 20 different countries,

They are made up of 12 Male incarnations and 12 female incarnations.

Universal Manifestation Principle™

The inner science of creation!

The Universal Manifestation Principle was introduced in the book, Soft Diamond Light published on 2010.

The Universal Manifestation Principle states that the existence of a lower dimensional, vibratory energy state is the sole effect of a causal, initiating higher, superphysical vibratory energy state expressing and moving through it.

The lower dimensional energetic state is observed and experienced as a progressively emerging, "cross-sectional effect" of this initiating, causal higher superphysical vibratory energy state as it expresses through the lower dimensional vibratory energetic state via the process of change.

Change, in the three dimensional space of the physical world, is defined by the re-organisation of energy in space during the energetic transition of time.

Change in higher vibratory superphysical space is defined as a re-organisation of the intensity of energy during a variance in the focus of the energy.

It is intended to scientifically present the understanding of how the Universal Manifestation Principle can be observed throughout the physical universe as the general principle for the initiation of a causal, higher super-physical dimensional vibratory energy state, expressing and moving through the lower three dimensional vibratory energy state of the physical universe.

In essence, how everything and everyone manifests in the physical universe.

How life works?

There is a systematic plan of evolution, involving everything and everyone contained in our solar system, with a definite intelligent goal in mind.

From Autobiography (In Development) by Anatole Kononewsky

© 2024 APK Creative Holdings Pty Ltd

How life works?

There is a specific method, laid down through the ages, of shortening this plan, so that by a conscious effort we may progress more directly towards that goal.

© 2024 APK Creative Holdings Pty Ltd

How life works?

This method asserts we need not trust to blind faith, but that we have within us latent powers, which when aroused, enable us to see and examine for ourselves the truth.

How life works?

This method also proves its case by showing how these powers can be awakened within us. This awakening is fundamental to the initiation of the superhuman evolutionary process.

- All physical materialisation rests on the premise of the existence of interpenetrating, interdependent super-physical worlds within worlds.
- Every 'idea' requires the duration of time and the process of change to actually materialise the fullness of that 'idea' into physical reality.
- This is the essence of the 'Universal Manifestation Principle'.
- To comprehend this principle requires 'breaking the mind barrier'.

There will be significant breakthroughs in all areas of science, philosophy and psychology as we more fully understand the fundamental premise that ALL physical matter is a direct and integral manifestation of inner superphysical matter and consciousness!

Essentially, Metaphysics and Quantum Physics agree that as both the mind and matter become extremely still, extraordinary powers can be naturally and spontaneously released.

NEW LITERARY WORKS *(Continued...)*

"A Matter of Life & Death: *Life goes on...*"

A non-science fiction novel, based on a true story concerning the 24 lives of a soul dating back to 23,875 BC, observed and documented by clairvoyant faculties in 1923.

The novel will be based on these incarnations in 20 different countries, made up of twelve males and twelve female incarnations -- a true story that is far more extraordinary than anything that could ever be made up.
