The package includes: the hardback book: 'Soft Diamond Light, Only love matters', 312pp, full colour; Music CD: 'Only love matters: music for Soft Diamond Light' (15 tracks/62:16); CD booklet: Power of sacred music, 16pp; Music CD insert: info on musicians, 4pp; Beautiful presentation box: Elegant full-colour 'clamshell' box, velvet lining, diamond and lotus illustration in holographic gold foil.

The response to the Soft Diamond Light package has been that it radiates a power for raising the vibratory atmosphere of wherever it resides. It uplifts everyone who comes within its field of influence. It emanates a powerful electro-magnetic field. It activates and cleans the inner superphysical atmosphere of your home or office space.

Soft Diamond Light is an intimate and first-person account of exploring the metaphysical universe to find the divine within, and manifesting the full potential of our spiritual selves into physical reality. It explores why you are far more remarkable than you 'think'. Anatole explores the bridge between exoteric and esoteric science.

The overall package is empowered with the fire of love and light, connected to a long lineage of spiritual masters. Representing - and intimately connected to - Anatole's personal spiritual journey over the last 45 years while bringing many major initiatives and projects into reality. This allowed him to discover what he has called the "Universal Manifestation Principle". The key metaphysical principle for how everything comes into physical manifestation. Anatole has used this understanding to manifest his businesses and projects.

This principle is introduced in the book along with other metaphysical processes that shape the physical. Soft Diamond Light has been designed to act as a catalyst to return to the serenity and stillness of the inner true Self. Inspired by the innate, intuitive impulse which lies within us, Soft Diamond Light is a call to manifest the full creative potential and personal power available to us all in the reality of our own lives. The objective of *the Inspired Thinking Institute Pty Ltd* was to publish a heartfelt, artwork production. The Soft Diamond Light package evolved over many, many years.

The essential premise behind the image, book and music, is that with every physical piece of artwork, literature and music comes the sum total of the vibratory energy invoked and generated during its production. This exists in the form of an animated and vitalised thought-form, holding the sum total of all the energy that went into the creation.

Soft Diamond Light

A timeless artwork production.

Overview

| Vision of Soft Diamond light

The package was primarily created to introduce the vision of Soft Diamond Light. *The question this vision asks is just how far can we see...*

| Talisman of Spiritual Power

Anatole has created Soft Diamond Light with a particular creative vision, aimed at enhancing the higher consciousness of everyone who experiences the mystical essence embedded within its images, text and music. Thereby it has the potential to impact you and your family in your home with the fullness of the vibratory note of its thought-form.

In this way, the overall package was designed as a talisman of power to assist in raising the vibration of the planet. *"The package has been specifically created to be a talisman of power, potent with energy even while unopened. It has been imbued with a conscious invocation of love, inspiration and excellence during the entire evolutionary process of its production.*

The package is empowered by the "visual mantra" of the Soft Diamond Light image and the vibratory energy of the music for Soft Diamond Light. This inner power can have a significant impact on everyone bathing in this vibratory atmosphere.

| Image of Soft Diamond Light

The Soft Diamond Light image was inspired from a powerful meditation experience on the 9 April 1992 while Anatole was living in an ashram. The image represents the extraordinary power of your inner Self, and along with the music for Soft Diamond Light (described below) holds the vibratory energy of your inner Self. This occurs as you become more attuned and absorbed to the fullness of the present.

| Book of Soft Diamond Light

The Soft Diamond Light image subsequently became the catalyst for the creation of the book, "Soft Diamond Light, Only love matters". The key principles of creative manifestation are introduced in the book. The book seeks to provide some different pathways, and to open some new doorways for examining the true purpose of our lives in a different light.

Part 2 of the book has a unique combination of meditations with a related insight exploring the functional inner nature of the universe and our place within it as human beings expressing our divine inner Self.

| 'Only love matters: music for Soft Diamond Light'

The spiritually-charged music for Soft Diamond Light is the CD called: 'Only love matters'. It is essentially based on one melody - from a song originally composed by Anatole on the 4 January 1993 for his spiritual teacher - and comprises thirteen moves, one song and a reprise of rich healing energy.

Overview

| 'Only love matters: music for Soft Diamond Light' (continued...)

The creation and production of the music, "Only love matters: music for Soft Diamond Light" emerged later after the concept for the book. The music was ultimately entirely based around a song written and performed for Anatole's spiritual teacher in her ashram on his birthday in 1997. *"The beauty of the music rests in its ability to entice the listener to hear the silence and power within the notes."*

"The music is saturated with the power of a lineage of spiritual masters." The more you dive into the music and dance with its rhythm, the more the music will invite you into its arms with its moments of simple serenity and fill you with the fullness of its inner power.

| Angel of Soft Diamond Light: awakening your inner Self

Soft Diamond Light has been consciously energised with the invocation of a long lineage of spiritual masters and an awakened angelic presence. This devic energy is responsible for overseeing the generation and distribution of the inner power created by Soft Diamond Light. It has been purposefully designed to assist us to become enlightened as to who we really are and to awaken our inner Self. Anyone can choose to cooperate with the energy of Soft Diamond Light and help raise the consciousness of this planet.

A deva or angel is invoked wherever the book and music reside. The image, book and music are infused with the blessings of the deva, empowered by an auspicious lineage of spiritual Masters. Each Soft Diamond Light package is placed in a meditation room, to soak up the sacred vibes of powerful ancient mantras as they are chanted in the spiritually charged atmosphere, thus receiving the blessings of these spiritual masters.

| Vajrasattva Deva

Soft Diamond Light is inwardly overseen by the powerful radiance of energy emanating from the Vajrasattva, which is Sanskrit for the true spiritual essence of a diamond.

Deva of Soft Diamond Light (AI)

Vajrasattva is a significant element in Soft Diamond Light and holds great spiritual power. Vajrasattva is a deity in Tibetan Buddhism and is often associated with purification and transformation. The word "Vajrasattva" is derived from two Sanskrit terms: "vajra," which means diamond or thunderbolt, symbolizing indestructibility and enlightenment, and "sattva," which means being or essence, representing purity and clarity.

In the context of Soft Diamond Light, the power of Vajrasattva is harnessed and channeled to enhance the spiritual qualities and effects of the artwork. Vajrasattva represents the true essence of the indestructible diamond that destroys all forms of ignorance. The energy of Vajrasattva is believed to have the power to purify negative karma, cleanse impurities, and bring about spiritual transformation.

By invoking the energy and presence of Vajrasattva, Soft Diamond Light becomes a conduit for spiritual power and transformation. It is believed that the artwork radiates the energy and blessings of Vajrasattva, creating a harmonious and uplifting atmosphere. The presence of Vajrasattva's energy in Soft Diamond Light is intended to support inner purification, spiritual growth, and the awakening of higher consciousness.

Through the combination of visual imagery, music, and the invocation of Vajrasattva's power, Soft Diamond Light aims to activate and cleanse the inner atmosphere, allowing individuals to connect with their spiritual essence and experience a deeper sense of peace, clarity, and transcendence.

It is important to note that the interpretation and understanding of Vajrasattva's power may vary among different Buddhist traditions and practitioners. The significance of Vajrasattva in Soft Diamond Light aligns with Anatole Petrovich Kononewsky's artistic vision and intention to create a transformative and spiritually potent artwork.

Soft Diamond Light Visual Imagery (AI)

How does Soft Diamond Light combine visual imagery, music, and the invocation of Vajrasattva's power?

The artwork of Soft Diamond Light holds deep symbolism and carries profound meaning.

These are some insights into the broader symbolism often associated with concepts such as "soft diamond" and "light."

Soft Diamond: The term "soft diamond" combines two contrasting qualities—softness and hardness—symbolizing a harmonious union of seemingly opposing forces. The diamond represents strength, clarity, and unyielding beauty, while the softness suggests gentleness, openness, and receptivity. This union signifies the integration of strength and vulnerability, resilience and compassion, and the balance between the masculine and feminine aspects of existence.

Light is often associated with higher consciousness, enlightenment, and the revelation of truth. In the context of Soft Diamond Light, the concept of light points towards the transformative power that transcends limitations and leads to spiritual insight and expansion.
